

NITHIN KRISHNA

Technical Support Engineer | Service Desk Analyst | Customer Specialist | AWS Solutions Architect

+1 382 882 1951 • nithin.krishna1@outlook.com • [LinkedIn](#) • [Portfolio](#)

SUMMARY OF SKILLS

- 3+ years of experience in Technical Support, Application Support, Service Desk Operations, and Enterprise Systems Support
- Expertise in troubleshooting application, system, network, access, and reporting issues across Windows, Linux, and cloud environments
- Experience managing incidents, service requests, and escalations using ServiceNow, Jira, and Azure DevOps while meeting SLA targets
- Strong knowledge of SQL, REST APIs, log analysis, root cause investigation, and production support processes
- Hands-on experience with IBM Cognos Analytics administration, report support, security management, and BI troubleshooting
- Familiar with Active Directory, Microsoft 365, VPN support, user provisioning, and access management
- Working knowledge of AWS services including EC2, S3, IAM, VPC, CloudWatch, Lambda, and EFS
- Effective collaborator with Engineering, QA, Infrastructure, Database, and Operations teams

EDUCATION

Mobile Application Development

Fanshawe College | **2024 – 2025**

Focus: modern mobile/web application development, UI/UX fundamentals, and API integration

Exposure to cloud services and JavaScript/TypeScript ecosystems

Bachelor of Computer Science

Mahatma Gandhi University | **2018 – 2021**

Focus: Object-Oriented Programming, Data Structures & Algorithms, Database Systems, Software Engineering

CERTIFICATIONS

AWS Certified Cloud Practitioner (CLF-C02) | Amazon Web Services | 2026

AWS Certified Solutions Architect – Associate (SAA-C03) | Amazon Web Services | In Progress

Customer Service Representative

Leaf Home, London, ON | **Jul 2024 – Jan 2025**

- Managed customer inquiries and service requests via phone and follow-ups, ensuring a positive customer experience
- Handled customer concerns, complaints, and service escalations with professionalism and timely resolution
- Performed outbound communication to confirm appointments, gather information, and provide service updates
- Documented customer interactions, case details, and resolutions accurately in internal systems
- Coordinated with internal teams to resolve service issues and ensure timely completion within service expectations

Technical Support Analyst

Cognizant Technology Solutions | Mar 2023 – Apr 2024

- Supported enterprise applications by resolving incidents, performance issues, and user-reported defects
- Investigated issues using SQL queries, log analysis, API validation, and root cause analysis techniques
- Managed incidents and service requests through Jira and Azure DevOps while maintaining SLA compliance
- Administered IBM Cognos Analytics, including user access, security, report scheduling, and content management
- Troubleshoot reporting failures, dashboard issues, and data discrepancies across BI environments
- Supported deployments, system monitoring, release validation, and production support activities
- Developed knowledge base articles and technical documentation to improve support efficiency

Senior Systems Engineer

Cognizant Technology Solutions | Aug 2021 – Feb 2023

- Delivered Tier 1 and Tier 2 support for software, hardware, network, VPN, and account-related issues
- Managed user provisioning, access requests, password resets, and Active Directory administration
- Performed incident analysis, troubleshooting, and escalation coordination to restore services quickly
- Created technical documentation and collaborated with cross-functional teams to improve service quality
- Conducted log reviews, incident investigations, and root cause analysis to improve service availability
- Collaborated with cross-functional teams to ensure timely incident resolution and customer satisfaction
